

Stockholm 2010.09.18

We are happy to announce our cooperation with Vekamaf, a Dutch Technical Trade company with similar profile as Thurne Teknik. In cooperation with Vekamaf we could bench mark our activities and strategies as well as our structural systems. The benefit for both our companies will be based on the fact that Vekamaf has an extraordinary good knowledge in geographical spread business set up and Thurne Teknik has a strong systematic approach in building up corporate processes. By sharing best practices we believe that value will be created for our customer, employees and share holders.

*"We are really looking forward to work in close collaboration with Vekamaf and strongly believe in the development boost it will create for both companies. As the cooperation has a strong foundation in shared vision and shared core values we are also convinced it will bring our two companies closer"* says Ulf Stenerhag, Managing Director, Thurne Teknik AB.

*Thurne Teknik AB are a Nordic private owned company (founded in 1962) offering advanced process systems, equipment and components to the process industry in the Nordic countries and Baltic States. Guided by our strong vision and commitment we have created a logical portfolio of key equipment for the life science, biotech, chemical, and food industry.*
